jludesiii@gmail.com

What, Me
Worry?

Guns

Bombs

Snipers

and everything else

Soft Targets

The use of barriers to protect soft targets is a relatively new concept when it comes to schools.

Formula for a Mess

broken drug deal > racial violence >
bomb threats > death threat

Solutions

- identify predictive behavior
- eliminate fear/promote pride

I still worry!

Columbine
April 20, 1999
(the start)

Sandy Hook
December 14, 2012
(the worst--so far)

More than 300,000
students affected
by gun violence
since Columbine.
